

The diagram illustrates a distributed system architecture. It features five vertical gray bars, each representing a node. At the top of each bar is a circular icon with a white border and a gray center, containing the text 'Sedna Service'. Below each icon, the text 'local memory storage' is written in white. At the bottom of the diagram, a large, light gray double-headed arrow spans the width of the five bars. Centered within this arrow is the text 'ZooKeeper Cluster'.
